Zurich, Switzerland, May 8, 2012: Adecco Group, the world's leading provider of Human Resources solutions, today announced results for the first quarter of 2012. Revenues were up 2% or -1% organically, to EUR 5.0 billion. The gross margin was 18.2%, an increase of 80 bps versus the prior year and up 40 bps organically. Continued strong cost control resulted in flat SG&A sequentially, on an organic basis and before integration and restructuring costs. The Q1 2012 EBITA margin before integration and restructuring costs was 3.8%, up 20 bps compared to the same quarter last year. Net income was up 12% to EUR 112 million. The Group generated strong operating cash flow of EUR 137 million.

Patrick De Maeseneire, CEO of the Adecco Group said: "We are off to a good start in 2012. Q1 2012 revenues are nearly at the same level as in Q1 2011, a solid result when considering the economic headwinds we face in Europe. Our revenue growth in North America continued to hold up well. Profitability continues to be a clear priority for us in France. Given the economic outlook for France we are convinced that we are taking the right measures to ensure sustainable and leading profitability. In Germany & Austria we are gaining market share at good margins. The Emerging Markets also continued their solid growth path. On the other hand, Southern Europe is clearly slowing: revenues in both Italy and Iberia were in decline in Q1 2012. The business mix is starting to work in our favour. Growth in professional staffing is outpacing general staffing and our gross margin is moving in the right direction, up 80 bps in Q1 2012 at 18.2%. Once again, we maintained SG&A sequentially flat on an organic basis and before one-off costs. This led to solid EBITA growth of 9% before one-off costs and in constant currency and an EBITA margin of 3.8%, up 20 bps compared to last year's Q1. We anticipate a similarly diverging picture geographically for the second quarter with North America holding up, but Europe remaining challenging. Our aim is clear: continued price discipline and tight cost control, while maintaining our focus on profitable organic growth opportunities. This keeps us well on track to reach our EBITA margin target of over 5.5% midterm."

#### MANAGEMENT OUTLOOK

The Adecco Group exited the first quarter of 2012 with an organic revenue decline of 1% in March, adjusted for business days. Revenue developments in April were a touch weaker. North America continued to hold up well, while the revenue development in France remained similar as in Q1 2012. Elsewhere, the picture is also diverse. Within Europe, revenue growth in Germany & Austria and in UK & Ireland remained in positive territory, while Italy slowed further. In the Emerging Markets revenue growth continues to be robust.

The business mix is moving in the right direction. The gross margin improvement in Q1 2012 was strong, reflecting our focus on disciplined pricing and cost control to further optimise profitability and value creation. SG&A in the second quarter of 2012 is expected to remain approximately in line with Q1 2012, on an organic basis and before one-off costs. Our plan in France, to merge the networks of Adecco and Adia under the single Adecco brand, is on track. We are convinced that our planned investments of EUR 45 million in France will result in an even better offering for our customers and will ensure sustainable and leading profitability.

Building on our strategic priorities we continue to focus our efforts on constantly improving our HR solutions, delivery models and the cost base, and we remain convinced that we will achieve an EBITA margin of over 5.5% midterm.
